Useful Information

Guarantee

All furniture is guaranteed for one year, on condition that each item is cared for in accordance with the advice contained on the Seller's website. The guarantee does not extend to usual wear and tear.

Teak & Wicker Aftercare

We are often asked about the best ways to care for teak furniture. Jo Alexander furniture comes fine sanded, it will have only the natural colour of the wood coupled with the raw natural texture of the teak grain. The untreated timber is a very pleasant yellowy-brown olive colour when still fresh. If the furniture is left outside, the effects of the sun's rays will bleach out the timber's natural colour, gradually turning it a soft silvery grey colour. This silver grey 'patina' which develops over time gives teak furniture a distinctive appearance. The silver grey colour resulting from this natural ageing process is considered to be very attractive, and allows the furniture to blend in well with any outdoor environment. Teak furniture left in this state is easily maintained, and needs no treatment whatsoever to give many years of service.

- Cleaning Teak Furniture

You can clean your furniture with a normal household bristle brush (not too hard) and some warm mildly soapy water. Wash down afterwards with clean water. There are also proprietary cleaners on the market which can also be used to clean off various deposits and accumulated dirt and stains. A specialist product such as Alfresco Restorer can be purchased from Jo Alexander Ltd. We do not recommend the use of high pressure hoses, steel wool or steel wire brushed as any residue left in the grain will rust and discolour the wood. If the furniture has some stubborn and heavily ingrained stains these can be removed by sanding with a fine grade of sandpaper, being sure to work only with the direction of the timber grain. After sanding stains away like this, if the furniture was previously teak oiled you may wish to re-oil, or if it had previously been left natural, the fresh colour exposed by sanding will soon mellow in with the existing silver grey patina.

- Cleaning Wicker Furniture

When cleaning it is important to use a non-foaming cleaner on woven furniture, as a foaming product will leave residues in the gaps in-between the weave which will then attract dirt. A pressure hose on a low setting is acceptable to use on wicker furniture.

Forestry Stewardship Council Certified Teak

We always ensure that we remain an environmentally and socially responsible company. The FSC is an international company who moderate forestry and timber companies in order to improve forest management, consequently the trademark of the FSC on a product indicates that the product has met their environmental, economic and social standards.

Making Returns

We want you to be delighted with your purchase. You can return your goods within 14 days of receipt for a refund or exchange. All we ask is that you return it unused and in its original packaging. For all returns, except where the furniture is faulty the customer will be required to pay for the return of the product to us.
